### OVERVIEW

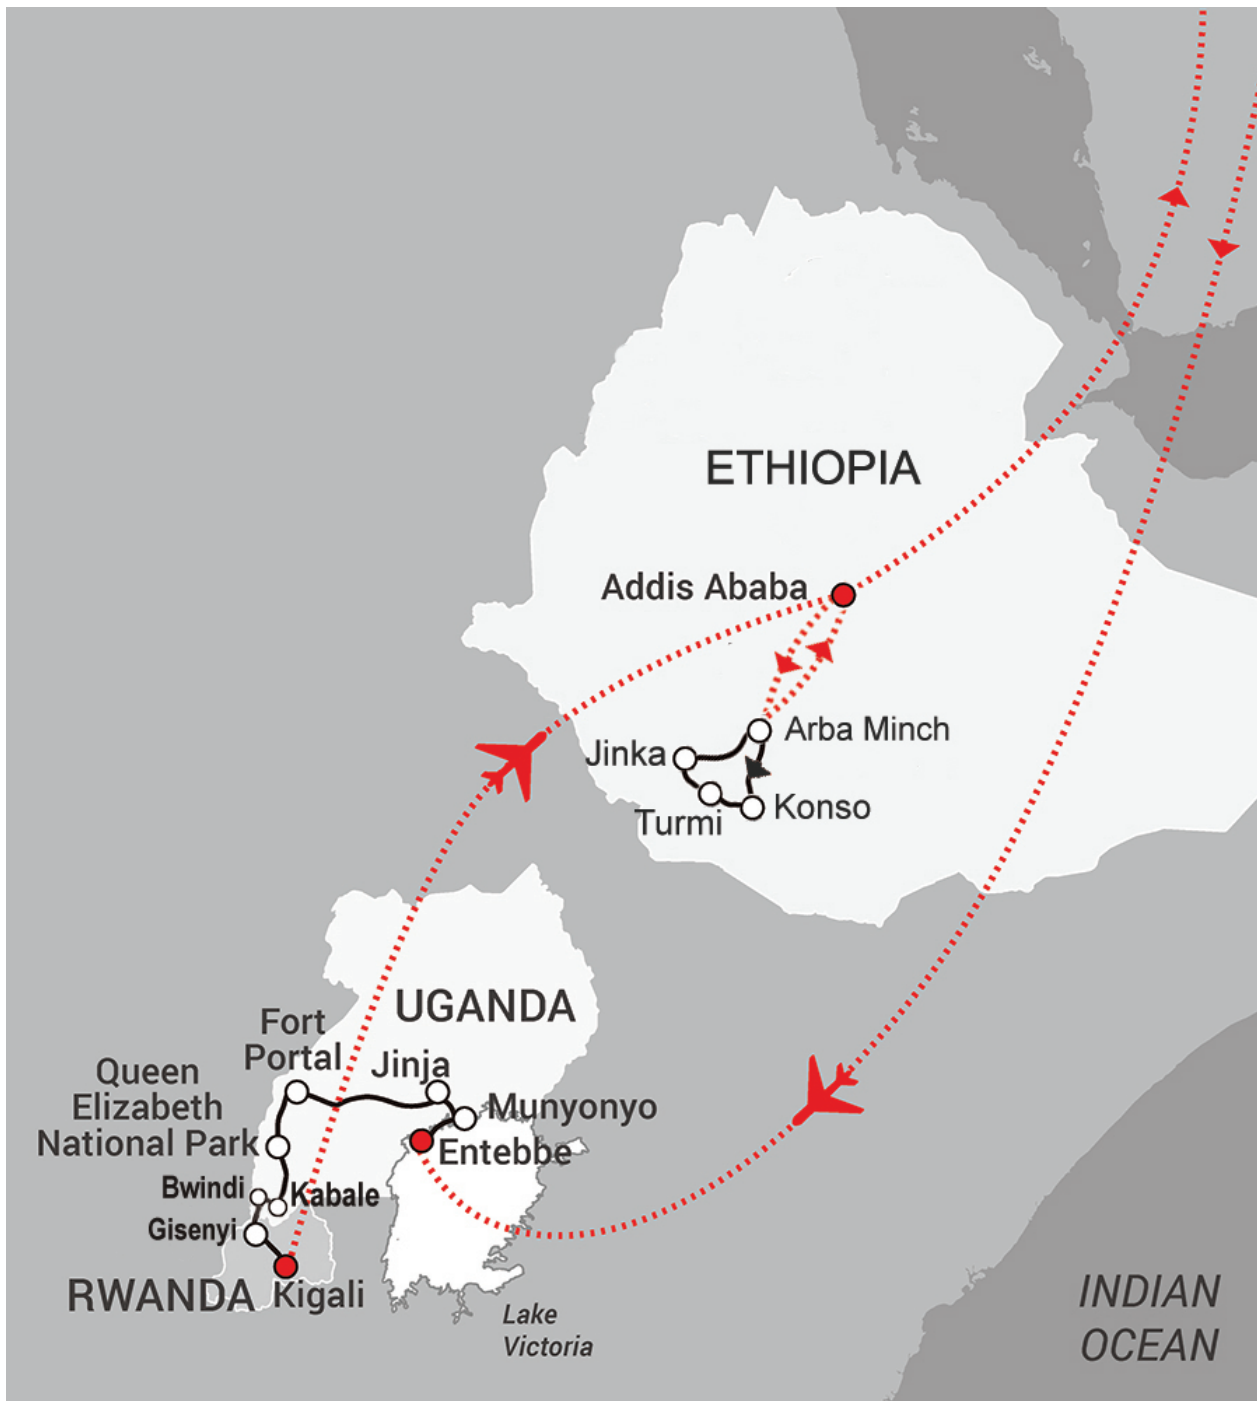

African Dawn is a 24-day tour that will show you many faces of this great continent. It's a mix of diverse experiences and sights, from Lake Victoria and the source of the Nile in Uganda, to the rare mountain gorillas of Bwindi Impenetrable National Park: from the tiny land-locked nation of Rwanda and on to Ethiopia - the cradle of civilisation. Imagine an adventure that starts with the thrill of seeing Lake Victoria and the River Nile, as it starts its epic journey northwards; an adventure that continues across the 'Mountains of the Moon' and onto one of the great wildlife parks in Africa, Queen Elizabeth National Park; an adventure that then heads south through the islands of Lake Bunyonyi and on to Bwindi Impenetrable National Park, home of the rare mountain gorilla. Imagine a walk that will bring you into close contact with a gorilla family on the forested slopes of the mountains, and on to the tiny land-locked nation of Rwanda; an adventure that then moves eastward to Ethiopia, the cradle of civilisation, for arguably the most amazing festival in the world, Timkat, which celebrates the Baptism of Christ. Then in complete contrast, we head south to the great Omo Valley, home to a diverse range of Ethiopia's tribal groups who still live in their settlements and villages as they have done for hundreds of years. Join us on this extraordinary and varied 24-day adventure!

### 22/01/2027 Konso - Turmi (BLD)

The walled towns and settlements of Konso are located on hill summits selected for their strategic and defensive advantages. The cultural spaces inside the walled towns, called moras, retain an important and central role in the life of the Konso people. The erection of stones and poles is also part of the Konso tradition: a pole is raised every 18 years, marking the start of a new generation. Thus, the age of a village can be determined by how many poles are standing. This morning we visit one of the UNESCO listed Konso villages, before continuing our journey to Key Afar, which hosts a vibrant market once a week when thousands of Banna, Hamar and Tsemay peoples descend on it to buy and sell goods. After our visit to the market we continue to Turmi.

Face masks are worn at times and they have clay hair buns with feathers in them. Red clay mixed with butter is put into their hair and clothing is made from animal skin. The women scar their chests believing it makes them beautiful. The men's scars represent an enemy or dangerous animal killed. Most men in the tribe have two or three wives.
