OVERVIEW

Imperial Horizons is an exciting new itinerary that takes us to China and Mongolia for a 25-day discovery of these two ancient lands. From Yunnan Province at the far eastern edge of the Himalaya, to the ancient capital Xian, then on to the vast steppes and grasslands of central Mongolia, this is an adventure of epic proportions!

Our journey begins in Kunming, capital of Yunnan Province, also known as 'the city of eternal spring'. We then head to in the Tibetan foothills and the beautiful 'Shangri-la' towns of Lijiang and Dali. Here we see traditional houses and shops, market squares and cobbled lanes, criss-crossed by canals and beautiful arched bridges. A short flight whisks us to Chengdu, home to the largest carved stone Buddha in the world, and also the Research Base of Giant Panda Breeding. We then take a train north to Xian, before flying to Hohhot, our springboard for the next phase of our journey to the immense natural beauty and nomadic traditions of Mongolia. After a two-night stay in the capital Ulaanbaatar, we head west to the huge sand dunes and the northernmost reaches of the Gobi Desert at Elsen Tasarkhai. It was here in this wilderness that the largest concentration of dinosaurs roamed the earth, and where Genghis Khan established the capital of the great Mongol empire. Continuing west we enjoy stays at Tsenkher Hot Springs and beautiful Ugii Lake, where we have the opportunity to immerse ourselves in nomadic Mongolian culture. Our final stop is Hustai National Park, home to a small population of the only remaining wild horse species in the world – Przewalski's horse. Join us on an exciting journey that takes us from the ancient dynasties of China, to the heart of the former Mongol Empire, where breathtaking and unspoilt natural beauty is inter-woven with ancient nomadic traditions.
